

I, as a resident of the Cincinnati area, am disappointed to hear of the possible loss of K-Love in our city. I have lived in Cincinnati for over four years and have not found a radio station that meets the same needs that K-Love does. K-Love reaches and is appreciated by many generations. My husband and I as well as our elementary-aged children enjoy listening to the station. Without K-Love, there will be a definite void in the types of stations offered in the Cincinnati area. I believe that allowing K-Love to stay on the air will be in the public interest because it is a one-of-a-kind radio station, it is listened to by a cross-generational demographic, it is "clean" broadcasting for the entire family on which parents can count, and because it is a nation-wide station, it keeps people across the country connected. PLEASE keep K-Love on the air in Cincinnati!
